The treatment is tentatively scheduled for mid June or early September 2016. Based on past experiences, we expect that the State will impose restrictions on the use of treated pond water for drinking and irrigation purposes. The specific use restrictions will be determined at the time the permit is issued and will be communicated directly to you in the notification of treatment that will be sent by certified-mail.

The restrictions extend to direct water intakes located within 1,200 feet of the treatment areas and to wells within 50 feet of the treatment areas. **Intakes (black pipe) that draw water directly from the lake within 1,200 feet of proposed treatment areas WILL be subject to irrigation and drinking restrictions.** If you have a well within 50 feet of the lake or an intake, please let us know by calling our office weekdays at 508-885-0101 or by emailing mlennon@SolitudeLake.com. Please be sure to reference **Northwood Lake** in your email.
